Foreign Object Debris Prevention

EFC/WESCO is dedicated to upholding the highest standards in our manufacturing processes to prevent foreign object debris contamination of our film capacitor products. Our prevention measures are bolstered by our sustained ISO 9001:2015 certification, which inherently seeks to guarantee quality and integrity throughout the production process.

We pledge to adhere to the following prevention practices:

1. **Manufacturing environment:** Our production facility is cleaned and organized daily using a “clean as you go” approach and weekly preventative maintenance tasks as part of EFC/WESCO’s routine housekeeping program.
2. **Personnel training:** All personnel involved in the manufacturing process will receive continuous training on awareness, prevention, and reporting related to foreign object debris.
3. **Material handling and storage:** All materials are handled and stored properly to maintain integrity. Incoming materials are inspected for damage.
4. **Manufacturing processes:** Our manufacturing processes aim to consistently deliver the highest quality products and services to our customers, as demonstrated by our ongoing ISO 9001:2015 certification. We employ specialized equipment, tools and techniques that have been refined over the years through our culture of continuous improvement in engineering, manufacturing and quality.
5. **Inspection and testing:** All capacitors undergo rigorous visual and electrical inspection and testing to detect any potential quality issues before being released for delivery.
6. **Packaging and shipping:** Our packaging materials and methods are designed to maintain the cleanliness and integrity of our products during shipping and transportation.
7. **Continuous improvement:** EFC/WESCO and our employees are dedicated to quality through continuous improvement, actively working to meet and surpass current and future customer needs. Aligned with our sustained ISO 9001:2015 certification, we implement corrective actions as needed to investigate, mitigate, and improve our processes and end products.

EFC/WESCO takes full responsibility for ensuring the cleanliness and integrity of our film capacitor products. We are committed to maintain customer satisfaction and provide the highest quality of products and services to our customers.
